1st Tarkanya Lytas Llewellyn Really good substance on this older male. Not showing his years at all. Good head and front construction. Would do a day's work in my opinion. Ok front construction good body shape. Did prefer turn of stifle on RBOB but ok. Good feet and moved well.

2nd Blitzan Eternal Light. A well put together bitch. Nice head and expression. Good neck into well placed shoulders. Nice topline held on the move. Just not the substance I would like to see. Moved well

Weimaraner

Even though there were only 2 entries in this breed I was very pleased with the quality. 2 magnificent examples of this lovely breed

1st Sharnphilly Avolon JW ShCm. I absolutely loved this boy. All male and oozes quality from every angle. His handler handles him so well and they are clearly a good partnership. I was a big fan of his dad and its clear he has passed on his qualities. Lovely masculine head and good ear set. Leading into correct shoulder. Lovely return and length to upper arm. Good bone and great length of rib with short loin. Good hind angulation, Good tail set which he can carry a little high. Top line still to come on this boy but should go very far. BOB and Group 2

1st Ansona Blue Bell at Nizrick. From another kennel bred from blue chip lines. She oozes quality from every angle. It was a very close decision between these 2. She is put together so well and moves with effortless drive. She has a very good front construction and did prefer her topline to 1. Just felt he had the edge on head and showmanship. She has a good length of rib and short loin with beautiful hind angulation. Lovely tight feet. And perfect substance for a bitch. Sure she will also do very well.

I was very lucky with my entry today. The first 3 places could of easily have swapped around. Making my decision really difficult.

1st Barleyarch Billbug at Lochpointer. What a lovely constructed puppy. Lovely head with soft dark eye giving a great expression. Good length to muzzle with roman bump. Good arched neck leading into well placed shoulders. Well up for bone with good return and length to upper arm. Short backed but standing over plenty of ground. Good hind angulations which drove him round the ring. Shame his owner can't keep up with him. Standing on good tight feet. His jacket is so correct. He is a little up on leg at the moment but this is due to age. Adult group shortlisted and puppy Group 4.

2nd Barleyarch Firefly Little brother to 1 but so very different. Not the head and expression of one but so much to like. Good front construction leading into well placed shoulders. Needs to bone up more for me. Short back and standing over plenty of ground. Good hind angulation and lovely tight feet. His owner handles him so well and very sympathetically. They make a very good team. He moved round the ring with grace and ease. RBOB

1st **Kilnrae Gretel**. A lovely true to type bitch. So well made and put together, from her correct head and muzzle and soft dark eye. Good neck into clean shoulder placement. Good limbs and correct body length and coat texture. Well set on tail with good angulations front and rear. Just showing her age now. A bitch of just my type.
