

HITCHIN, 19/10/14

SIBERIAN HUSKIES – J (2,1a) 1 Winter & Unwin's Snowtrekka Bewitched, stood alone in the class but very much deserved first place. Typical keen expression. Moderate bone, well angulated & gave a good appearance of balance. Moved with purpose. A little excitable which is to be expected of a young Siberian & was handled very well.

PG (1) 1 S Bewitched.

O (5,1) 1 Winter & Unwin's Nashanessen's Dirty Harry at Snowtrekka, a very well balanced dog with correct height to length ratio with excellent angulation. Lovely dark eyes with correct almond shape & correct setting. Would like to see him use his ears more. Correct depth of chest, correct sloping croup & good tailset. Very well muscled. Wonderful movement, effortless & light on his feet could watch him all day. BOB;

2 Robinson & Platt's Rigrunner Jubilee Flypast, another excellent mover showing both reach & drive. Level topline which held nicely on the move, good angulation, mischievous expression, well furred ears & a super coat. RBOB.
