Curly Coated Retrievers

Post Graduate (1) – **Whitehead's Kelsmere Kamana for Foxrievers**. Black bitch with a feminine head, kind dark eye and lovely expression. Correct tail set which comes down from a level topline both on the stand and on the move. Easy movement, enough reach to cover the ground well. Good curl to the coat. BOB and please to see her shortlisted in the group.

Open (1) – **Whitehead's Springcurl Spin Doctor for Foxrievers**. Liver dog with a masculine head complete with eye colour to compliment the coat. Muscular quarters with moderate turn of stifle. A little excitable on the move today and when going away a little close on the rear movement. In good coat. RBOB.
