Junior handling

6-11 years

1st; George Gardener

Worked well with the dog they had, worked hard to not brake the golden rule, with clean lead changes and presentation

2nd; Camilla-Rose Vayckus

This handling had dog that is hard to make it look clean, however they coupled very well.

12-16 years

1st; Isabelle Collier

This handler still alone however worked hard for placing a first and best of all junior handler, clean straighten lines, A steady performance that was not rushed. This handler made the dog stand out rather than themselves, which is how it should be. BJH

Adult handling

17-35 years

1st; Susan Jones

Again still alone with the puppy worked hard to settle her down and encourage her in a calm and collected way. Just what you want to see, the handler insured it was a positive experience for this puppy.

36+ years

There was some close competition between the top three.

1st Mrs D Hardwicke

This handler watched me well and picked up on my movements, they allowed me to see the dog in the best light. BAH

2nd; Anne Chivers

this handler worked hard and could've swapped places in another day, again was very clean on the movements, however the first overall presentation was just slightly better.
