Retriever Curly Coated:

P (4) A lovely class of puppies with very little to separate them. All of which i'm sure will change places many times. 1 May's Foxrieve Dragon Heart (ai) A very promising puppy, liked his overall shape and at just 6 months is the correct size for his age. Super front angulation with upper arm and shoulder blade of equal length and shoulders well laid, forelegs straight and well boned standing on good feet. Good depth to chest, spring of rib and short loin. Nice turn to stifle with hocks well let down. Sound and positive mover for his age. Head of good wedge shape and nicely proportioned with slight stop and pleasing eye. BP.

2 Sutton & Whitehead's Foxrieve Immortal Spirit Well up to size with an attractive masculine head, correct eye colour and shape with good pigment. Strong neck onto a good layback of shoulder, firm level topline and tailset. Good bone and straight front with tight feet. Deep chest with good width, spring of rib and short couplings. Turn of stifle moderate with good strength to thighs and hocks well let down. Strong mover. Hope he settles down again after a recent upset as he will trouble the best. Lots to like.

Res Sutton & Whitehead's Foxrieve Firefly (ai).

J (1) 1 Kear & Whitehead's Foxrieve Infinite Spirit (ai). Liked this 6 month old a lot and was more settled in this class. Although he stood alone he was worthy of his 1st place. Good depth to his chest and well bodied. Moderate turn of stifle with good bone and tight feet. Nice head of a good shape, correct eye colour and ear placement. Shows good ground covering movement once settled into his stride.
